Customized solutions for a seamless cloud transformation

Medium-sized production companies are facing many challenges today: Rising manufacturing costs, unstable supply chains, a shortage of skilled workers and greater sustainability. Mastering these challenges requires flexible, agile and future-proof IT in the public cloud, which is the starting point for continuous digital transformation and innovation.

RISE with SAP paves the way to an intelligent, sustainable company in which all IT and business processes are seamlessly integrated with one another. However, the path to this goal is challenging and individual for every SME. That is why we have developed Syntax Compass, a comprehensive range of services that is specially tailored to the requirements of SMEs.

Production companies and offers them a customized roadmap to the RISE with SAP world. With our offer, we support you in every transformation phase - from planning and Migration to the cloud (e.g. Microsoft Azure, AWS, GCP), smooth and secure operation and continuous optimization of your individual processes.

What does Syntax Compass mean for RISE with SAP?

The Syntax Compass includes a suite of products and services that covers the end-to-end SAP S/4HANA Cloud lifecycle. Organizations can seamlessly transition from their current SAP environment to RISE with SAP. They can focus on their core business processes, when we also take care of their cloud, functional and technical managed services.

Syntax Compass for RISE with SAP

Discover → Adopt → Optimize

We help customers navigate the digital journey to RISE with SAP supporting:

- **Core SAP** and ancillary cloud application implementation and management
- **SAP business innovation**, transformation, and optimization
- **SAP Enriched industry** and technology specialization

SYNTAX

Discover

How to get the most out of your SAP investments

Good planning is half the migration. Our experts will work with you to develop a customized roadmap for your journey to the cloud. Syntax services help you to get the most out of your RISE with SAP investments.

- Compass Cloud Transformation Assessment: An initial RISE with SAP roadmap for your company with content, costs and timeframe
- Compass Cloud Readiness Assessment: Concrete description of the service-based way of working with new RISE with SAP-based IT processes.

- Compass Strategic Assessment: Precise planning for your end-to-end RISE with SAP transformation (technical migration, IT and business processes, SYNTAX RISE with SAP Services)

SYNTAX

Adopt

**Modernize your SAP ERP landscape
with cloud solutions and close the gaps
in RISE with SAP implementation**

RISE with SAP is the basis for agile ERP operations in the cloud and the driving force behind the transformation of your entire company. Our Professional Services cover all the requirements of medium-sized manufacturing companies.

- Design and realization of the end-to-end solution
- Implementation and migration within the RISE with SAP framework
- Industry-specific templates and ACTIVATE methodologies
- Design and implementation of holistic cloud environments (RISE with SAP and non-SAP workloads)

- Change management and qualification measures
- Cloud hosting, connectivity and management of non-SAP workloads and SAP workloads which are not on RISE.
- Integration and security services for your entire IT landscape

SYNTAX

Optimize

Improve time to market by optimizing data management and innovating business processes

We are familiar with the requirements of medium-sized manufacturing companies and know that cloud standardization and individual production processes do not always go hand in hand. That's why we offer our customers industry-specific expertise.

- German-speaking Governance Services for holistic support of your RISE with SAP environment and Application Management Services (functional and technical)
- Industry-specific add-ons for S/4HANA and SAP Digital Manufacturing
- Syntax's own solutions based on SAP BTP and Microsoft Azure
- Industry-specific syntax implementation methodologies

- AI-based data analyses and -Visualizations with Microsoft Fabric
- Managed Services for Microsoft 365
- Identity management services based on Microsoft Entra ID and Active Directory
- Innovative apps based on the Microsoft Power Platform Tried and tested SAP use cases for Microsoft Copilot
